

United States Department of Agriculture

Research, Education, and Economics  
Agricultural Research Service

August 14, 2003

Dear Requestor:

Enclosed is a copy of our grape catalog and a disclaimer stating some of our conditions. Most accessions in the catalog are available, depending upon stage of propagation. If items are not available this year, you will need to request them again another year.

When selecting your order, the following conditions apply:

1. Orders for grape cuttings must be received by November 15 so that propagation wood can be collected before January 15. This protects buds against winter freeze. Orders will be stored under controlled conditions for shipment by March 20.
2. **ALL FOREIGN ORDERS MUST INCLUDE AN IMPORT PERMIT, WHERE APPROPRIATE. PLEASE CHECK WITH YOUR COUNTRY'S PLANT INSPECTION AND QUARANTINE CENTER. A COPY OF THE IMPORT PERMIT TRANSLATED INTO ENGLISH MUST BE ENCLOSED WITH THE REQUEST. WE CANNOT CERTIFY THAT OUR PLANTS ARE VIRUS AND/OR PEST FREE. YOUR PERMIT MUST GRANT YOU A RESEARCH EXEMPTION FROM THIS REQUIREMENT.**
3. Orders for pollen, seed, fruit, and other plant tissues may also be requested.

If you have an email address, please include it on the order form so you can receive electronic copies of the catalog and order form in the future. This catalog can be found on our website at [www.ars-grin.gov/gen](http://www.ars-grin.gov/gen). Ordinarily, no more than 25 different accessions and no more than 5 cuttings of each accession may be ordered in a single year. If a specific project has requirements that exceed these numbers, I should be contacted directly so that special arrangements can be made.

Thank you for your interest in our program.

Sincerely,

Mr. Philip Forsline  
Grape Curator

## **DISCLAIMER**

The Plant Genetic Resources Unit (PGRU) at Geneva, New York is responsible for the acquisition, maintenance, evaluation, characterization and distribution of apple, tart cherry, and cold-hardy grape germplasm. This wide array of genetic diversity is available **without charge** (unless there are special shipping requirements) to any *bona fide* plant scientist or plant propagator. Because of operational constraints, only limited quantities of each accession can be distributed.

Unless stated, the disease status (including viral, bacterial and fungal) of the enclosed material has not been determined. All distributed germplasm is subject to local, state, national and/or international quarantine regulations.

The authenticity of the identity of the requested accession(s) has been determined by the best presently available methods; however, determinations are not guaranteed. **The PGRU at Geneva assumes no responsibility for the plants and/or propagules shipped.** Questions, comments and suggestions should be directed to:

**USDA, ARS Plant Genetic Resources Unit  
Cornell University  
Geneva, New York 14456-0462  
United States**

Mr. Philip Forsline  
Horticulturist/Curator  
Apple, Grape and Tart Cherry

## **PLEASE NOTE:**

**ALL FOREIGN ORDERS MUST INCLUDE AN IMPORT PERMIT, WHERE APPROPRIATE. PLEASE CHECK WITH YOUR COUNTRY'S PLANT INSPECTION AND QUARANTINE CENTER. A COPY OF THE IMPORT PERMIT, TRANSLATED INTO ENGLISH, MUST BE ENCLOSED WITH THE REQUEST.**

**WE CANNOT CERTIFY THAT OUR PLANTS ARE VIRUS AND/OR PEST FREE. YOUR PERMIT MUST GRANT YOU A RESEARCH EXEMPTION FROM THIS REQUIREMENT.**
